

1Job.co.uk Media Pack 2012

1Job is the UK and Irelands No.1 Job Search Engine. We send over 500,000 candidates each month, directly to job adverts like yours. And getting your job adverts listed on 1Job is simple. If your website displays 150 job adverts or more, we can send you substantial numbers of high quality candidates tailored to fit your job types now. Also, because we charge on a pay per click basis, you will only pay for performance.

With no contract tie-in period, you're in control of how much you spend each month. These are just some of the benefits you get when you try 1Job;

- High volumes of quality-relevant candidates, delivered directly to your job adverts
- Improve the job application response rate you'll get to your customers' job adverts
- Help you grow your CV database, and keep it continually refreshed with new candidates
- Increase candidate registrations, enabling you to bring them back again by direct mailings
- Increase your customer base by getting better quality candidate results for your clients
and more!

Candidates want to be able to find jobs like yours quickly and easily. With over 1,000 job boards alone in the UK and Ireland alone that's not easy, and that's where 1Job, the UK and Irelands No.1 candidate referral Job Search Engine can help you.

We don't tie you in to any long-term contracts. We want you to be happy with our service, and we believe that the results speak for themselves. All you need to do is tell us the budget or target number of candidate click thrus you want to receive each month, and that's it. Candidate click thru charges are the same for all of the clicks to your job adverts, CV registration page or homepage. And we'll only bill you at the end of the month after we've sent click thrus to you.

From your Account Dashboard you can monitor the candidate click thrus you're getting, and your monthly spend. As well as being able to view your results whenever you like, email alerts can be set up to keep you updated regularly.

Having your jobs listed on 1Job requires minimal set-up by you. Once your site has been set-up, listing summaries of your job adverts with us, and keeping them updated, is effortless. Once you're linked to us, your job adverts are updated and kept fresh - automatically!

As you can see from the example above, each job is displayed in a summary form and acts as an individual advert for that job on your site. Candidates click through to the job advert displayed on your site and can read the full job details, apply and register their CV with you on your site. They apply directly to you and NOT through our site - we do not capture your applications.

Instant Boost of Candidate Traffic in 2012

If you have your own website with over 150 job vacancies listed, 1Job.co.uk can automatically index your vacancies and drive thousands of candidates to your site each month! To ensure the best quality, advertisers need to provide an XML/RSS feed of all of their live vacancies, updated at least once, daily.

Prices start at only 10p per click.

At 1Job.co.uk we pride ourselves in having one of the largest sources of quality UK candidate traffic for Job Boards and Recruitment Agency websites. Having a large audience, both on our website and via our iPhone and Android Application, puts us in a great place to directly help you fill your job vacancies.
